

Welcome to Year 5

Welcome to Year 5!

We would like to take this opportunity to welcome you and your child to Year 5. In Year 5, we have lots of exciting subjects that we learn and explore. This leaflet is designed to give you and your child an overview of the curriculum and the topics that take place

The Year 5 Team

Teachers: Mr Turner and Miss Hodgkinson

Teaching Assistants: Mrs Minton and Mrs Priest

If you need any assistance or have any queries please do not hesitate to contact us. You can make an appointment to see us before or after school to discuss any questions or concerns that you or your child may have.

1:15 - 3:15		Spelling - 45 mins	(Guided Reading) English	Linked Learning	
		Linked Learning	English		

General Information

To help your child to be organised you may wish to use this checklist of items required in school.

Water bottles will be refilled in school

Indoor and outdoor PE kit will be needed throughout the week –

Children will need a navy t-shirt with school logo, navy shorts, pumps or trainers and a navy tracksuit (for outdoor P.E.)

We have PE timetabled for a Wednesday and Friday, however we advise that PE kit is brought to school on a Monday morning and taken home on a Friday so that it is in school in case we need it.

We will swim on Monday afternoon in the Autumn Term.

Learning logs will be sent home every three weeks. The children will have two weeks to complete a research based project, together with related spellings.

Maths

Maths lessons take place on a daily basis and follow the National Curriculum. The Curriculum is divided into six strand areas as follows:

Number and place value

Addition and Subtraction

Multiplication and Division

Fractions, Decimals and Percentages

Measurement

Geometry and Shape

Statistics

Each strand has identified objectives that the children work towards throughout the year. It is essential that you practise the following areas weekly with your child:

- All addition and subtraction facts for each number to 100, e.g. $46+54=100$.
- Sums and differences of multiples of 10 and number pairs that total 1000, e.g. $600-200=400$, $200+100=300$, $600+400=1000$.
- Multiplication and division facts for all the times tables up to 12×12 .

Arithmetic

1. Round 1514.48 to the nearest whole number.

2. 37 370 3700

3.
$$\begin{array}{r} 3207 \\ \times 27 \\ \hline \end{array}$$

Reasoning and Problem Solving

1. Mr Chen's phone cost £264 for 12 months. He pays the same amount each month. How much does he pay?
2. A bucket has a capacity of 4 litres. Fred turns the tap on. 200ml of water go into the bucket every second. How many seconds does it take to fill up the bucket?
3. Sanjay drinks $\frac{3}{10}$ of his milkshake. What percentage is left?

English

English lessons take place daily and encompass all aspects of English, ranging from Speaking and Listening, Reading, Writing, spelling and handwriting.

Within Writing lessons, we teach specific grammar related objectives, often through an engaging hook for their writing.

(Eg. Use of fronted adverbials for when in a recount for a Lighthouse Keeper)

We are trying to promote the whole process that a writer takes – from planning and gathering ideas, to drafting, editing and improving and producing a final piece.

Grammar, punctuation and spelling tests.

Reading

When teaching reading in Year 5, our main focus is on comprehension skills.

We teach reading as part of English lessons. In addition to this, your child will choose a 'homereader' book which they should read at home, independently and with an adult. They will have the opportunity to change this on a regular basis. As well as English lessons and home readers, children will also have the chance to visit the school library and have the opportunity to take a library book home.

It is still essential that you hear your child read every day!

Example questions from reading tests

Reading comprehension practise books

Challenge cards

Maths

These include addition and subtraction facts, number bonds, **timestables** and related division facts, as well as other useful mental methods which support your child's learning in Maths.

Spelling

These words are taken from the National Curriculum spelling lists. They also include suggested words from the rules taught in class.

Your child will also get topic related spellings as part of their Learning Log homework.

Any questions?

- Maths games
- Spelling activities
- Spelling and grammar tests
- Maths tests
- Reading tests
